

## Count All Kids Social Media Toolkit

# Grandparents Day, Sunday, September 8, 2019

Grandparents Day is Sunday, September 8. This holiday is a great opportunity to raise grandparents' awareness that they should include in their Census form the young children living in their household. Many young children living with their grandparents were not counted in the 2010 Census. In preparation for Grandparents Day, Count All Kids has released a blog and developed this social media toolkit. Specific state data is provided at the bottom of this toolkit.

In 2010, the Decennial Census missed over two million young children under age five. Census data is used to allocate over \$800 billion a year in federal funding, by formula, to states and communities. When we miss young children in the Census, their states and communities lose funding for 10 years for the programs that help children thrive, like schools, child care, children's health insurance, housing, and public transportation. Ten years is most of their childhood.

The next Decennial Census will start in March 2020. We need to count all young children to help them thrive. We know most young children are missed when they are left off the Census form in a household that is counted.

Young children are more likely to be left off the Census form if they are living in the household of a grandparent. Over 2 million young children live in their grandparents' homes, so making sure grandparents know to include these children in their Census form can help improve the count of young children.

## Table of Contents

Happy Grandparents Day	2
Grandparents, Count those kids!	3
Young Children are often left off, especially by grandparents	5
Opportunity for communities to thrive	7
More information	9
Number and percent of grandchildren living in their grandparent's household	11
National and state data	13

- It's Grandparents Day! Does your grandchild live with you in your home? Then remember to include your grandchild when you fill out the Census form this spring! #CountAllKids #2020Census
- Grandparents, it's your day! When you complete your #2020Census form, remember that
  counting young children who live with you benefits kids by increasing funding for schools
  for the next decade most of their childhood! #CountAllKids
- Grandparents, it's your day! When you fill out your #2020Census form, be sure to count your grandchildren and any other young child living with you! #CountAllKids
- Happy Grandparents Day! Grandparents, if a young child lives and sleeps in your household most of the time, you should count them in the #2020Census form that you fill out. If you are unsure, count the young child if they are with you on April 1, 2020. #CountAllKids
- Grandparents, even if a child is living in your household temporarily, they should be counted in your #2020Census form if they have no other permanent home. #CountAllKids

- Happy Grandparents Day! If a grandchild is living with a grandparent temporarily and has nowhere else to live at the time, they should be included in their grandparent's Census form! #CountAllKids #2020Census
- Grandparents, do your grandchildren's parents know that they should #CountAllKids, even babies and toddlers, in the #2020Census?
- Grandparents, let the parents of your grandkids know that they need to #CountAllKids in the #2020Census, even babies and toddlers, because it increases their communities' funding for child care and schools

It's Grandparents Day! This holiday is a great time to acknowledge the many grandparents whose grandchildren live with them most of the time. Nationally, 2.25 million children under age 5 live in a grandparent's household. These grandparents are giving their grandchildren love and a home; they have our respect and admiration.

There is something more that these grandparents can do for their grandchildren – it's quick, easy, and will make a difference for a decade. They can make sure they count their grandchildren in the 2020 Census next spring.

Census data is used to allocate over \$800 billion a year in federal funding, by formula, to states and communities. When we miss young children in the Census, their states and communities lose funding for 10 years for the programs that help children thrive like schools, child care, children's health insurance, housing, and public transportation.

In 2010, the Decennial Census missed over 2 million young children under age 5. The next Census will start in March 2020. We need to count all young children to help them thrive.

We know most young children are missed when they are left off the Census form in a household that is counted. Young children are more likely to be left off the Census form if they are living in the household of a grandparent.

Grandparents, when you fill out your 2020 Census form, remember that counting young children who live with you benefits kids for the next decade – most of their childhood!

You can learn more in our blog.

- It's Grandparents Day! Unfortunately, young children are more likely to be missed in the Census if the person filling out the form is their grandparent. All children should be included in the Census form! #CountAllKids #2020Census
- 4 out of 5 young children who were missed in the 2010 Census were left off their household's forms. Children living in a grandparent's home are more likely to be left off.
   Remember, all kids should be counted in the household they live in most – including grandparent's homes! #CountAllKids #2020Census
- Happy Grandparents Day! This #2020Census, remember to count grandchildren living with a grandparent! All young children must be counted in the household they live in, but many kids are not counted if they live with a grandparent. #CountAllKids

- Grandparents, it's your day! If your grandkids live with you, remember to include them on your Census form this spring! Programs that help young kids for most of their childhood depend on grandparents including children on the #2020Census form. #CountAllKids
- In the past, grandparents have left children living in their household off Census forms. Federal funding for community services such as schools, child care, housing, and transportation is allocated by formula from Census data, so including young children helps them thrive. #CountAllKids #2020Census

Happy Grandparents Day! This holiday is a great time to acknowledge so many grandparents whose grandchildren live with them most of the time. We know that counting children in each Decennial Census is essential to ensuring that the community programs that help children thrive receive the funding they need. Unfortunately, in the 2010 Census, 4 out of 5 children who were missed were left off of their household's Census form. This happens more often if a young child is living with their grandparents.

Remember, all children should be included in the Census form of the household they live in most – including grandparents' homes! <a href="www.countallkids.com">www.countallkids.com</a> #CountAllKids #2020Census
